A deceptive street view hides the space inside and outside of this appealing, single storey home. Renovated internally, the 2 bedroom house has polished timber floors, large living rooms overlooking the expansive, fenced rear yard and a modern kitchen with stainless appliances. The main bedroom has a walk in robe and ensuite bathroom and the laundry has an extra shower and toilet. All set on a very large (1012m²) block, the property also has a separate lock up garage and large carport. Room for additions and/or a second storey extension would capture lovely ocean views.
